

Creative Photo Academy by PAUL'S PHOTO

Printing for Perfection

Step-by-step to make amazing prints

Printing for Perfection will guide you to making the prints you have always desired... whether you print at home or use "the lab." **Printing for Perfection** will focus on helping you "get the most" from your digital files by recognizing what is a good print. **Printing for Perfection** will teach you the rules and foster the skills required to produce amazing printed photographs. **Printing for Perfection** will inspire you to create "wall-hanging" art and encouraging you to share your images.

Printing for Perfection offers monthly discussion, informative lectures, challenging assignments and stimulating critiques. Perfection is not required, nor encouraged. Mistakes often lead us to deeper and more profound growth. We learn through experimentation, exploration, discussion and collaboration! **Printing for Perfection** is a journey of creativity and expression, with a group of dedicated photographers who share your passion! A sense of adventure, willingness to experiment, high resolution digital images and digital processing skills are required (Adobe Photoshop CS, Elements or Lightroom or Apple Aperture).

The **Creative Photo Academy at Paul's Photo** is the "next generation" of classes at Paul's Photo. All the sections are now **CLiQ Academy Certified** courses! Students completing **Printing for Perfection** will have the opportunity to earn a **Creative Photo Academy Certificates of Completion**.
