You are invited to experience the Paul's Photo Yosemite Photo Adventure. Wonderful scenery, fantastic locations and good friends make for a grand photographic adventure. Mark Comon will provide the technical knowledge and inspiration, you provide the creative desire! Learn to produce great scenic images by practicing the rules of exposure, creative composition, and proper lens selection and filter techniques. Great images and good times will be had by all. Each day provides a balance of photo opportunities and time for relaxation. Fall in Yosemite boasts ever changing weather, colorful foliage and even a chance of snow! Nothing could be better.

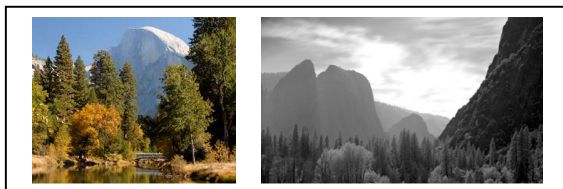

As photographers we are drawn to Yosemite Valley's magical beauty. Ansel Adam's images have inspired us to create images of the polished granite, flowing water and fall foliage. The *Range of Light* provides us with countless photographic images... the challenge is to see the beauty, revel in it, and create stunning photographs.

Join us for an amazing adventure where photography and creativity are paramount. Beginner and accomplished photographers will succeed!
